# VEHICLE

### BRACKET FOR UNITECK PANELS

Innovative mounting brackets for a flat fixing of your Uniteck solar panel.

UNIFIX C sticks to all flat surfaces : car or commercial vehicle roof, boat deck. Its aerodynamic and « soundless » design prevents wind catching and sound disturbances.

Unifix C enables to raise the panel. It improves your panel thermal dissipation, and thus your energy production (+30% compared to a panel glued without ventilation).

Robust and easy to install, it is simply glued, removing grease from your surface, and sticking your Unifix with instant glue (degreaser + glue not included).
